FilmTrack Music

All your production music in one place

## A great music track can make or break your final cut

Searching across multiple music libraries to find the perfect track can take hours. Organizing this music is not only a hassle for one but for all; causing inefficiencies when collaborating with internal and external teams. Logging those tracks in a cue sheet and having to remember which tracks came from which library, is not only a time consuming task but also an unnecessary hassle.

FilmTrack Music hosts all of your licensed production music in one place; making it easy to search and download the most up-to-date music for your projects. Keep your music organized by creating customized playlists that can be shared with internal and external teams, making collaboration easy, quick, and efficient. Automate and export cue sheets in industry standard formats; reducing errors and saving you time.

AUTOMATE CUE SHEETS

ENHANCE COLLABORATION

ALL YOUR MUSIC IN ONE PLACE

Why Choose FilmTrack

Our Music Library solution saves you time and money. With a database of over 130 production music distributors and SFX, our library represents over 4 million compositions and sound recordings. If we don't host a specific library, we can easily ingest it on your behalf.

SAVE TIME

Securely access multiple music libraries from anywhere, at any time, on one platform.

IMPROVE COLLABORATION

Easily search and download the music you need and create playlists for your projects to be shared across team members.

REDUCE ERRORS

Automate cue sheets from playlists or imported EDLs in a matter of seconds, in industry standard formats.

Schedule a demo today and discover how you can easily search and download the music you need
